ABOUT ISMS

The Indian Society for Medical Statistics (ISMS), established in 1983 at Jhansi in Uttar Pradesh is a Society, registered under Societies Registration Act XXI of 1860. It is a scientific body consisting of biostatisticians, medical teachers, researchers, demographers, public health professionals and scientists from other related disciplines. This society of scientists working in the medical field is the only society of its kind in the South East Asia region. Society provides a common platform for medical researchers, statisticians and computer specialists to interact and benefit mutually towards sharing the developments and applications of statistical techniques. ISMS is also making efforts at the level of various Councils to augment the training of bio-statistical methods in both medical and para-medical education to improve the quality of education and research in Modern medicine, Dentistry, Pharmacy, Homeopathy, Indian medicine (Ayurveda) and Nursing. Since its inception, the society has been organizing a conference every year in conjunction with its annual meeting at different universities and academic institutes in the country
